

Holiday Luminaries!

Neighborhood Luminaria Coordinator,

Luminarias can create a beautiful and festive atmosphere in your neighborhood. And if you have organized Luminarias in the past, you know it takes time and effort in collecting candles, bags and sand, typically, from three different sources.

LumaBase Luminarias make the project easy, efficient and fun. We offer the patented, reusable, nonflammable LumaBase. The LumaBase holds water to provide the necessary weight to anchor the bag. It is designed to hold three different size candles. You never need to use messy sand again.

Along with the LumaBase, we offer the LumaSleeve; a die cut cardboard that slides down inside the bag. It provides stability and creates a decorative design all at the same time.

Insert the candle into the LumaBase, place into a bag, slide the LumaSleeve inside the bag and light the candle for a beautiful lantern.

We offer the Luminarias a few different ways. In the 12 count kit; that contains 12 LumaBases, 12 Lumasleeve, 12 Bags and 12 Candles. Or, for extra savings, order in Bulk. We offer each of the components in Bulk individual bulk packed in cases of 100. When ordering in Bulk, the Luminaria Project Coordinator needs to divide the components for each neighbor household.

Don't forget, the LumaBase is reusable and can be used throughout the year. Refill kits are available on our website www.lumabase.com.

Should you have any questions, please email us at: sales@lumabase.com or call 610-524-4166.

Regards,

Lisa
